## OUR PARTNERS IN INNOVATIVE COMPONENT TECHNOLOGY

Ultra flexible multi-purpose silicone encased cabling for mission critical applications. Temp rated -65 to 260 degrees Celsius, shielded or unshielded with conductor sizes from #44 to #2/0 AWG. Cable Configurator is a web site feature for instant cable construction with a drawing and pricing per foot.

High performance fiber optic interconnects with Diamond's Active Core Alignment for the highest light concentricity and repeatability. PS, PM, IP-rated solutions and designer and manufacturer of the E2000 platform.

www.prysmiangroup.com

Wire manufacturer for space flight, commercial, and military applications. EN/Mil-SAE/ASNE hook-up wire rated for 200-260 degrees Celsius. Light weight composites, coax/twinax, quad ethernet, JTP-FTP CAT 5 and CAT 7 for data. Bend resistant MM jacketed and silica fiber optic cables.

www.experiorlabs.com

Third party test facility for mil-aero, space flight, and telecom quality, test, design verification, and calibration services. Specialization in optical and electrical interconnects. ISO/IEC 17025 accreditation. Mil-STD 790 and FOC-ITL approvals.

www.bentleyharris.com

Federal Mogul's Bentley-Harris systems protection group, manufacturer of Expando and Roundit loom wraps for Mil-Aero, rail Transportation, energy exploration, and heavy industrial applications. Anti-abrasion, thermal management, chem/fluid resistance, and EMI Protection.

www.filconn.com

EMI/RFI filter and transient suppression connector manufacturer for Commercial and mil-aero applications. ARINC, 400/600, M24308, M26482, M38999, M83723, and M83513 styles. Integrated Banding Platform For profile reduction

www.iehcorp.com

M55302 QPL'd interconnects with immunity to shock and vibration, low insertion force, low contact resistance for mil-aero, rail transit, Medical, and space flight applications.

www.lindenphotonics.com

Manufacturer of kink and crush proof strong tether fiber optic cable (STFOC) for sub-sea, mil-aero, space flight, and down-hole/industrial Applications.
